|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**The Carbon at Risk measure to manage carbon removal risk and guide effective portfolio construction**  
(with [Bali Lee](#), [Nick Gogerty](#), [Oleksandr Kit](#), [Delia Meth-Cohn](#), [Frederic Olbert](#), [Frank Venmans](#), [Gabrielle Walker](#), [Paul Young](#), and [Ben Groom](#))  
Draft available [here](#).

---

**SELECTED  
WORK IN  
PROGRESS**

**The impact of climate change on global economic output**  
(with [Marshall Burke](#), [Dylan Hogan](#), and [Solomon Hsiang](#))

**The impact of urban floods on housing markets: Evidence from Mumbai**  
(with [Amine Ouazad](#), [Ashwin Rode](#), and [Vaidehi Tandel](#))

**The global mortality consequences of rainfall**  
(with [Ashwin Rode](#) and [James Rising](#))

**Selecting time controls in climate impact studies**  
(with [Filippo Palomba](#))

**Groundwater depletion reduces farm worker employment in the High Plains**  
(with [Lucas Frye](#) and [Michael Oppenheimer](#))

---

**FELLOWSHIPS**

2025 - *Princeton Institute for International and Regional Studies Fellowship*  
2025 - *Princeton Graduate Fellowship in Social Data Science*  
2024 and 2025 - *Neil A McConnel fellow*

---

**TEACHING**

Econometrics and Public Policy (Advanced)

- Masters level course in the School of Public and International Affairs.
- Applied econometrics using R, with a focus on the concepts and techniques most relevant to public policy analysis.

Climate Change: Impacts, Adaptation, Policy

- Undergraduate level course in the Department of Geosciences.
  - An exploration of the consequences of human-induced climate change and their implications for policy.
- 

**WORK  
EXPERIENCE**

*Pre-doctoral fellow, [Climate Impact Lab](#)* 2018 - 2020  
Energy Policy Institute at the University of Chicago

*Economist, Office for Gas and Electricity Markets* 2015 - 2017  
UK Civil Service

---

**CONFERENCES  
& INVITED  
SEMINARS**

2026: Richard Doll Seminar (University of Oxford, UK), Energy and Environment Group Talk Series (University of Cambridge, UK), CMIP Seminar (World Climate Research Programme).

2025: Scenarios Forum (Leeds University, UK), Managed retreat (Columbia University, USA), Eastern Economics Association (New York, USA), UK Network of Environmental Economists (London, UK), Econometric Society Interdisciplinary Frontiers (Barcelona School of Economics, Spain).

2024: American Geophysical Union (Washington DC, USA), Mid-West Economics Association (Chicago, USA), Interdisciplinary Ph.D. Workshop in Sustainable Development (Columbia University, USA).

---

**OTHER**

*Computing:* R, Python, Julia, Stata, Git, Bash.

*Reviewing:* Climactic Change, Review of Economics and Statistics, Environment and Development Economics, Earth's Future, PNAS, UnJournal.
